DETAILED ACTION

Allowable Subject Matter

1. Claim 15, 16, 18-21 and 23-28 are allowed over the prior art of record as amended in the reply filed 06/03/2009. The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose either singly or in combination the claimed method or utilizing a whitish resin based workpiece for laser welding whereby the whitish piece possesses a certain balance of polycarbonate and titanium oxide, the particles sizes are so particular, the whiteness degree is so particular and the oil absorption is so particular.
2. The closest prior art of record is Joachimi et al. (US 2003/0125429), followed by Aylward et al. (US 5,998,119) and Andrew (US 3,459,575); however, these references do not teach the method as claimed.
3. Regarding claim 15, Joachimi teaches the general method of a polycarbonate based workpiece utilized for laser welding, but is drawn primarily to darker pieces rather than whitish pieces and does not disclose the claimed particle sizes, surface treatment, whiteness degree and oil absorption. Aylward provides that the claimed particle sizes of titanium oxide were known for yellowing. Andrew discloses the surface treatment as known and beneficial. The prior art of record fails, however, to disclose either singly or in combination the claimed method because firstly the whiteness degree is not disclosed, secondly because the oil absorption is disclosed and thirdly because the

Art Unit: 1791

primary reference which generally reads on the invention is drawn primarily to darker pieces. The combination of the differences and specificity of the ranges would not have been found obvious absent additional teaching in the prior art.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
